# Introduction to the State Digital Equity Planning (SDEP) Process

### **Scott Adams**

Deputy Director of Broadband and Digital Literacy

**California Department of Technology** 

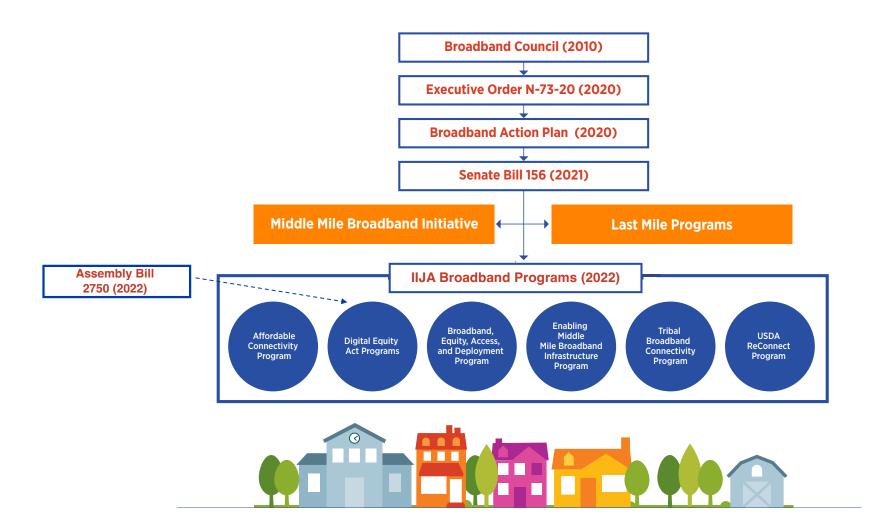

Digital Literacy & Inclusion

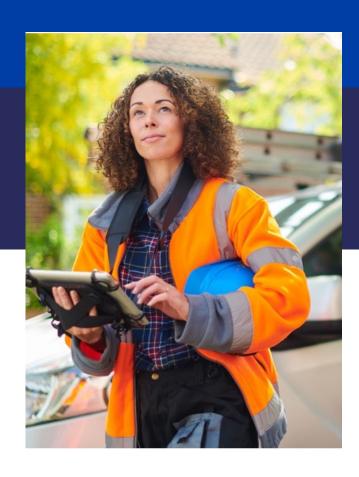

**SDEP APPROACH** 

## **Planning Components**

The State Digital Equity
Planning (SDEP) process will
consist of five components:

- Statewide Planning Group (SPG)
- Outcome Area Working Groups
- California Digital Equity Survey(s)
- Regional Local Outreach Events
- Statewide Public Engagement

### **SDEP APPROACH**

## **Six Outcome Area Working Groups**

Education

4

Essential Services, Accessibility and Civic Engagement 2

Health

5

Workforce and Economic Development

3

Digital Literacy and Inclusion

6

**Tribal Collaboration** 

### **OAWG STAFF**

Scott Adams, Cole Przybyla, Laura Sasaki, Anh Nguyen Contractors + Graduate Student Assistants

The Digital Equity Act prioritizes investments for eight "Covered Populations"

Individuals living in covered households with an income at or below 150% Federal Poverty Level

Aging individuals

Incarcerated individuals other than individuals who are incarcerated in a Federal correctional facility

**4** Veterans

Individuals with disabilities

Individuals with language barriers including individuals who Are English learners; and have low levels of literacy

Members of a racial or ethnic minority group

Individuals who primarily reside in a rural area

### SDEP APPROACH

## **Working Group Objectives**

Outcome Area Working Groups will convene subject matter experts and practitioners together to develop strategies that align with SDEP priorities, through the lens of the digital equity barriers of the eight covered populations.

### **Working Group objectives:**

- 1. Develop a statewide stakeholder map for each outcome area
- 2. Conduct an asset inventory of programs, plans, and services for each outcome area
- 3. Promote and encourage participation in the statewide digital equity survey
- Conduct gap analyses for each outcome area
- Develop recommendations to CDT for inclusion in the SDEP

What is Digital Equity?

Why is it Important?

### **Gladys Palpallatoc**

Federal Program Officer
National Telecommunications and
Information Administration

#### **Jonathan Porat**

Chief Technology Information Officer California Department of Technology

### Jacob "Jake" Johnson

Deputy Director, Chief Information Officer Strategic Growth Council California Department of Rehabilitation

### What is Digital Equity? Why is it important?

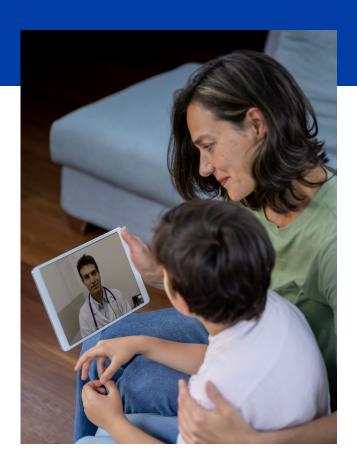

### **Definition**

## From the National Telecommunications and Information Administration (NTIA):

**Digital Equity:** The condition in which individuals and communities have the information technology capacity that is needed for full participation in the society and economy of the United States.

**Digital Inclusion:** The activities that are necessary to ensure that all individuals in the United States have access to, and the use of, affordable information and communication technologies, such as—

- Reliable fixed and wireless broadband internet service;
- Internet-enabled devices that meet the needs of the user; and
- Applications and online content designed to enable and encourage self-sufficiency, participation, and collaboration

What is Digital Equity? Why is it important?

### **Discussion**

## **Prompts:**

- What does digital equity mean to you?
- 2. Why is digital equity important for the specific communities you serve, including covered populations?

## **Community and Lived Experiences**

Essential Services, Accessibility and Civic Engagement

### Community and Lived Experience Discussion

### **Prompts**

- 1. What digital equity barriers do your organizations/ community members and/or those you serve experience? How do those barriers impact access to essential services, civic engagement, and accessibility?
- 2. What steps are you and/or your organizations taking to address digital equity barriers to increase access to essential services, increase civic engagement and address a variety of accessibility needs? Please share effective strategies or examples.
- 3. Please share any reflections you might have about our discussion today, topics we have not mentioned, or digital equity in general.

Essential Services, Accessibility and Civic Engagement

### **NEEDS ASSESSMENT:**

# Digital Equity Ecosystem Mapping (DEEM) Tool

## Digital Equity Ecosystem Mapping

### Take Action: Use the DEEM tool

The Digital Equity Ecosystem Mapping tool tracks **all Digital Equity** programs and resources throughout California and will inform how grant resources may be distributed. The mapping tool will help identify:

- What programs are being offered, where they're being offered and to whom, and what is missing in each region.
- Barriers to achieving digital equity in every California county.

Timeline: Launch Q1 2023

## Digital Equity Ecosystem Mapping

## Who should participate in DEEM?

**All** entities, coalitions, practitioners, and funders with existing and planned programs and services that provide access to digital equity resources in communities throughout California.

### **NEEDS ASSESSMENT:**

# Digital **Equity Survey**

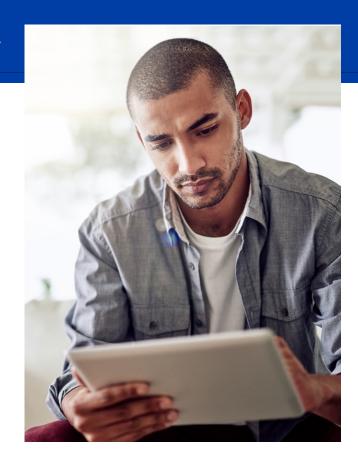

## **Digital Equity Public Survey**

CDT will distribute a statewide **Digital Equity Public Survey** to residents of
California as a civic engagement tool to
identify barriers to digital
equity, especially for Covered
Populations.

The survey is intended to capture information about internet access, internet affordability, and internet adoption for residents in California households.

Timeline: Launch Q1 2023

## **Digital Equity Public Survey**

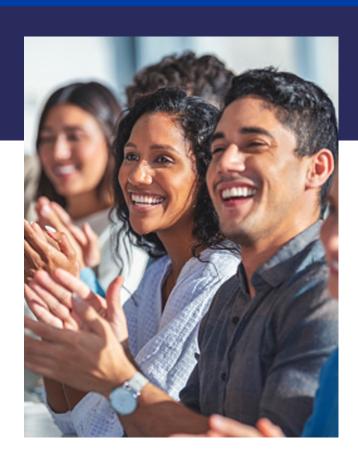

### Scope

Two versions of the survey will be shared in **all 58 counties** and will oversample for the **eight covered populations**:

- Online survey
- Phone survey

## Other Ways to Get Involved

Members of the public interested in helping inform the State Digital Equity Plan can also:

- Sign up for updates on the Broadband For All Portal (<u>https://broadbandforall.cdt.ca.gov/state-digital-equity-plan/</u>)
- 2. Attend a local event near you
- Complete and share the Digital Equity Public Survey with your friends and family and your networks

## **Next Steps**

Essential Services, Accessibility and Civic Engagement

### Outcome Area Working Group

### **Next Steps**

### **Next steps for Working Group will include:**

- Develop strategies that align with SDEP priorities
- 2. Conduct gap analysis
- 3. Conduct research, evaluate assets, and develop recommendations for CDT within their assigned Outcome Area for inclusion in the SDEP

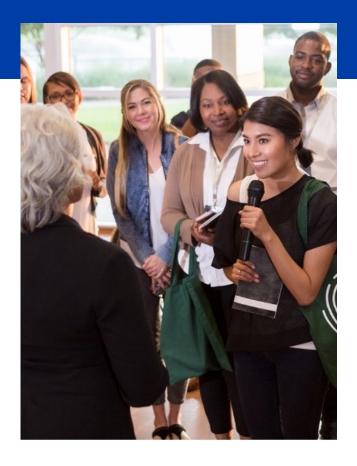

### Outcome Area Working Group

## **Future Meeting Topics**

## **Upcoming OAWG Monthly Meetings Will Address:**

- March: How does digital inequity create disparities when it comes to essential services, accessibility, and civic engagement?
- May: What digital equity programs are currently working well in your community? What's missing?
- June: Using the Public Survey and DEEM data to shape SDEP priorities.
